Dear Sir:

Enclosed for filing in the above-identified application is a PTO/SB/08 Equivalent listing eleven (11) references to be considered by the Examiner. Also enclosed are seven (7) foreign patent references as listed on the Information Disclosure Statement. No English translation is available for Document No. 1 in Foreign Patent Documents; however, this is relevant as it was cited and described in the attached office action by the German Patent Office in the German counterpart patent application (an English translation of the office action is also attached). In addition, the German office action cited Japanese patent publications which have already been made of record in the present application. However, since English abstracts of the Japanese patent publications included in the German office action are slightly different from those already of record in the present application, copies of the English abstracts of the Japanese patent publications are also enclosed herein.
